If you reside in the Republic of Ireland, go to <https://www.gov.ie/en/>

URN	LIS ID	Test Name	Result	CT Value	Test Method
M200061621	0	E-gene	Negative	Undetermined	Vivalytic POCT RT-PCR

Type of Test: Sample collection for the Vivalytic POCT RT-PCR test is in the form of a swab, which will gather an individual's nasopharyngeal and oropharyngeal secretions.

Technical Note: A sample is prepared by extracting the chosen section of the genome, and then PCR (Polymerase Chain Reaction) techniques are used to amplify (replicate) the genome section, ready for detection. This type of test detects the RNA (Ribonucleic acid) contained within the SARS-CoV-2 virus.
